

# New York HCBS Approved EHR

As part of New York's behavioral health transition to managed care, federal grant money is being offered to providers of Home and Community Based Services (HCBS). The OPWDD program includes opportunities for individuals with developmental disabilities to work in competitive and integrated settings, engage in community life, control personal resources and receive services in the community, to the same degree as individuals who do not receive HCBS.

## Why Choose Welligent as Your HCBS Approved EHR?

Welligent provides a simple and intuitive cloud-based EHR specifically configured for New York HCBS providers. Our HCBS approved software is designed to meet your needs as your organization grows. With over 15 years of experience in 27 states, including New York, Welligent offers unrivaled customer service and billing support. When partnering with Welligent, your organization receives unlimited access to all EHR modules at no additional cost—including access to all our mobile apps, patient portal and virtual user community. Welligent is a leading EHR vendor with world-class development and project management teams. Best of all, Welligent is accessible Wherever You Are, whether you're using a desktop, tablet or smartphone, even without Internet connectivity.

## Key Clinical & Case Management Features

Welligent's HCBS approved EHR offers the following capabilities:

- Individual Service Plans (ISPs), Adult BH HCBS Assessment, Discharge Plans and additional service requests
- User access restriction of service by credential
- Individual and group note documentation
- Practice management that includes a full front desk call center and scheduler
- Direct reporting from the EHR without third party integration

## Key Billing Features

We offer Change Healthcare, formerly Emdeon, for your EDI claims processing. New York City payors include: EmblemHealth, Empire Blue Cross Blue Shield, Fidelis Care, Healthfirst, MetroPlus, United Healthcare and Visiting Nurse Service of NY. Welligent offers the following claims processing functionality:

- Access Change Healthcare's file management
- Adjust and manage claims
- Configure billing rules, pay sources and billing codes
- Manage billing cycle and revenue
- View and manage billing warning alerts
