Welligent EHR for
Student Health Services

Effective Tools for Today's Complex School-Based Health Needs

Welligent's easy-to-use, cloud-based EHR, was created to facilitate the unique needs of school services. Support for nursing or counseling services is provided in an all-in-one comprehensive and simple application.

Welligent's School Nursing functionality includes the ability to track and manage office visits, standardized screenings/assessments, immunization information, vitals, hearing and vision testing, allergies, and medication administration.

Providing school services such as counseling or drug and alcohol prevention and education is streamlined with the industry's most configurable and feature-rich behavioral health software application.

School Nursing

School-based Mental Health, Drug and Alcohol Prevention and Early Intervention

Related Services: PT, OT, Speech

> " What impressed me the most about working with Welligent was their personal touch and accessibility.

Chris Howard, IT and EHRS Director
Foothill Family, Utah

Medicaid and Medi-Cal Claiming

Welligent provides the ability to bill for nursing and related health services including claims sent to a clearinghouse or by direct submission, custom invoice formats, and paper claims.

The Capabilities You Need All in One Place

Welligent's EHR for schools allows you to do everything from traditional school nurse office visits to comprehensive behavioral health service documentation.
