# WELLIGENT EXPRESS

## WELLIGENT'S MOBILE EHR

With Welligent Express, your EHR is accessible wherever you are—whether you're in the office, the community, a hospital or school setting. Your scheduling, documentation, billing information and medication management are accessible from your desktop, tablet or smartphone. Welligent Express completes user authentication through SSL utilizing the same login credentials as our desktop EHR. Our app complies with HIPAA regulations. Spend more time with your clients and less time catching up on documentation.

## NO WIFI? NO PROBLEM.

With Welligent Express, you can go offline in the morning and stay offline all day. Access your client records, forms, medications and pay sources all without an internet connection. Document your notes as usual and sync your data the next time you have internet access. Welligent Express is your key to increased productivity.
