A Better Way
to Work + Better
Health Outcomes

Created by Behavioral Health IT Experts for Behavioral Health professionals

Welligent has been perfecting the behavioral health EHR for nearly 20 years. But perfecting doesn't mean limiting. It's one comprehensive system, not one-size-fits-all, equipped to make your workflow work better for you.

Configurable

We help you tailor Welligent EHR to suit your unique functionality and workflow needs with personalized consultations and trusted third party integrations.

Comprehensive

Extensive solutions for practice management to handle your caseload, schedule, documentation, revenue cycle and more.

Superior Service

Committed Support and Training Teams are here to help you quickly acclimate to your new system, offer refreshers as new features are developed and released, and help you out when you need it.

"

Together with Welligent, we have been able to create a clinical record, a workflow, and a communication system that supports our direct service staff in providing timely, individualized, needs-based and outcome-driven services.
