Superior Service

Receive support, training, and system enhancements from a single vendor.

Key Features

**Safe and Secure
HIPAA Compliant**

**Group or Individual
Sessions**

**Multi-Device
Compatibility**

Use the Minutes You Need with Welligent Telehealth

Welligent's affordable Telehealth provides you the ability to access EHR and Video Conferencing features from a single, consolidated system under a shared minutes plan.

- ✓ Customized plans to ensure you pay for the minutes your agency needs regardless of individual provider utilization
- ✓ Our flexible shared minutes plan means you control which users have access instead of being locked into fixed per-user fees
- ✓ Roll over minutes that your agency hasn't used to the next month - you get what you pay for and your minutes won't expire

Only Pay for What You Need

We'll work with you to create a monthly shared minutes plan. If you need more, purchase more to meet your needs. Un-used minutes roll over to the next month.

One Penny Per Minute Goes a Long Way

For example, an organization that needs 100,000 minutes to be shared among clinicians, clients, and other stakeholders would pay \$1,000 per month. Minutes are always available, and unused minutes are rolled over to the next month. We'll work with you to ensure that your monthly minute allotment meets your needs!
